A QUICK GUIDE TO OFFSIDE AND ICING

Offside occurs when a member of the attacking team crosses over the defending team's blue line, before the puck. The position of the player's skate - and not that of his stick - is the determining factor. If both skates are over the blueline before the puck, the player is offside. If he has only one skate over the blueline and one on it, he is onside.

leing is when the defending team shoots the puck down the ice across two red lines (the red centre line and the goal line), without it touching another player. Icing is not permitted when teams are at equal strength or on the power play. When this occurs the game is stopped and a face-off takes place in the defending teams zone.

lcing the puck is not called

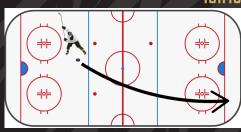

If the goalie leaves the crease to play the puck, even if he does not touch the puck.

If an official rules an opposing player could have played the puck before it crossed the red goal line.

An official may waive off the icing call if he deems it was an attempted pass.

MACK STEWART

PLAYER PROFILE

Mack Stewart has emerged as a key player for the Milton Keynes Lightning in the 2023/24 NIHL season. Showcasing his offensive prowess, Stewart tallied 39 points (16 goals, 23 assists) over 51 games, demonstrating his importance to the Lightning's forward lines. His ability to contribute in crucial moments was also evident in the playoffs, where he added 4 points (1 goal, 3 assists) in 6 games. Stewart, with his blend of skill and physicality, also racked up 53 penalty minutes, indicating his readiness to engage in the grittier aspects of the game. As a player with a well-rounded game, Stewart is poised to continue being a vital asset for Lightning in the upcoming season.

COACH'S COMMENTS

Was nice to get the 4 points at such a crucial point in the season. We faced a depleted roster and we were able to control most of the weekend. Our focus was to not form any bad habits and play to our level with purpose. We are starting to find some chemistry and are collectively playing with high levels of motivation.

Hull on Saturday will be an intense game. We are confident if we manage the puck and take away time and space from their top players we should have a good chance on getting the two points.

Bobby Chamberlain had another strong season with the Hull Seahawks in 2023/24, registering 69 points (28 goals, 41 assists) in 43 games. Chamberlain's physical presence and leadership on the ice were pivotal during the playoffs, where he tallied 16 points (11 goals, 5 assists) in 6 games. Known for his hard-nosed style and ability to come through in clutch moments, Chamberlain will continue to be a key figure for the Seahawks.

Owen Sobchak made an immediate impact after joining the Hull Seahawks mid-season in 2023/24, posting 48 points (19 goals, 29 assists) in just 19 games. Sobchak continued his strong play into the playoffs, where he notched 16 points (5 goals, 11 assists) in 6 games. With his dynamic playmaking skills and scoring ability, Sobchak is expected to be a central figure in the Seahawks' offense in the upcoming season.

Emil Svec had an outstanding 2023/24 season with the Hull Seahawks, leading the team with 111 points (56 goals, 55 assists) in 54 games. Svec's combination of size, skill, and scoring ability made him one of the most feared forwards in the NIHL. His playoff performance was equally impressive, contributing 13 points (4 goals, 9 assists) in 6 games. Svec's ability to dominate in the offensive zone will be crucial for Hull's success in the 2024/25 season.
